

Respect for Life & Patient-Centered Care

Where Every Tiny Life Matters

Pediatrics

"During each hospital visit, the medical staff explained our baby's condition and shared encouraging words that gave us strength. The neonatal intensive care unit (NICU) nurses took care of the babies with so much love that we felt reassured. They even celebrated Ye-chan's 100th day in the hospital. We are truly grateful for everything," Ye-chan's mother recalled...*(Read More)*

Empowering Patients to Fight Stage 4 Cancer

Colorectal Surgery

"We haven't done anything yet, so why feel defeated? It's not that there is no way, but rather that we are choosing the best way. Don't despair preemptively. Together, we can overcome this."

With unwavering hope and courage, Professor Lee Yoon Suk stands beside his patients, assuring them of his steadfast belief that they can fight this illness together...*(Read More)*

500 Robot Surgeries Driven by a Mission of Hope and Courage

Urology

Professor Hong Sung Hoo became the first in the Asia-Pacific to perform 500 Single-Port (SP) robotic urological surgeries. "I believe it is my duty as a physician to bring courage and hope to patients in despair. I will continue my research and do my best to develop improved treatment methods," said Professor Hong...*(Read More)*
