Meet The Masters

Professor Jin-Sung Kim,
Neurosurgery Dept.

Expert Diagnosis and Unparalleled Techniques

"We perform highly complex spinal surgeries using the refined techniques unique to neurosurgery. While Neurosurgery and Orthopedics overlap in some areas, Neurosurgery specializes in more complex conditions, such as tumors located within the spinal canal."... (Read More)

Thank You Letter

"A Professor Who Turned My Fear Into Hope"

Even on holidays, Professor Sung-Hoo Hong made his rounds, carefully checking my condition. Through his dedication, I could truly feel his genuine care for his patients. Thanks to his heartfelt compassion, my initial fear gradually turned into hope, and I gained the confidence to live a healthier life for the days ahead.

*I am deeply grateful to Professor Hong for being a beacon of hope for his patients.
